

# PRE-INSTALLATION CHECKLIST

Thank you for choosing **Bob's Carpet & Flooring** for your flooring needs. Installation can be overwhelming! To assist that the process runs smoothly, we created this guide complete with a handy checklist. Proper planning and preparation of your space will help to reduce delays, avoid additional charges, and ensure a successful installation.

## PREP YOUR SPACE

### GETTING READY FOR NEW FLOORING INSTALLATION

- Appliances.** Arrange for natural or propane gas appliances to be disconnected and reconnected by the appropriate professionals if installation is taking place in those areas.
- Furniture and Breakables.** The technicians will move large furniture pieces such as couches, tables, and bookshelves. Make sure these are cleared of all items. China, tabletop pictures, and any fragile or high-value items must be removed from all rooms or spaces receiving new flooring.
- Electronics.** Unplug, disconnect and remove all electronics and other electrical items, including lamps, computers, smart home devices, soundbars and speakers, televisions, miscellaneous components, etc.
- Bedrooms.** Remove linens and pillows and remove items from under beds. Adjustable / electric beds will incur an extra charge.
- Bathrooms.** The technician will remove toilets upon request; however, a licensed plumber is required for re-installation.
- Walls.** Clear walls of pictures, art, mirrors, drapes, wall hangings, etc., along pathways to allow for furniture moving, debris removal, and flooring installation.
- Closets & Storage Areas.** Make sure the floor of closet(s) and other storage areas are cleared out and remove any low-hanging items up to 3 feet high.
- Pets.** Have any pet-soiled areas thoroughly cleaned prior to installation. Remove litter boxes and bedding. Arrange for pets to be kept away from the installation area and vehicles.

#### GOING TO DIY YOUR OWN DEMO?

- ✓ Remove old flooring. Existing flooring should be torn out and removed down to the subfloor from all rooms that will receive new flooring prior to the day of installation.
- ✓ Leave tack strips. If you're having new carpet installed, existing tack strips should be left in place. The installation technician will determine if any sections need to be replaced.

#### IMPORTANT NOTE:

**Non-Movable / Specialty Items.** The technician will not move certain items such as antiques, electronics, pianos, pool tables, waterbeds, aquariums, safes, gun safes, pinball machines, exercise equipment, etc. When in doubt, ask before installation occurs.

If additional charges apply for moving furniture, your Sales Consultant will advise you and the additional charges will be included in the quote from Bob's Carpet & Flooring.

**Bob's Carpet & Flooring** is pleased to offer flooring installation that is both fully warranted for labor and in compliance with each individual manufacturer's warranty requirements. With our installation services, no matter what flooring product you choose, you'll receive the full benefits of the **Best Warranty** in town.
